KINDS OF NOUN

- Noun निम्न पाँच प्रकार के होते हैं-

1. Proper Nouns:-

A proper noun is a specific (i.e., not generic) name for a particular person, place, or thing. Proper nouns are always capitalized in English, no matter where they fall in a sentence.

- My name is **Jaideep**. (Name of a particular person)
- He came back from **Mukherjee Nagar**. (Name of a specific place)

2. Common nouns:-

Common nouns are those nouns that refer to a generic item, group or place. This means that, unlike proper nouns, they are not used to identify specific people, places or objects. Common nouns are not capitalized unless they appear at the start of a sentence, unlike proper nouns, which are always capitalized.

Common nouns include the names of different jobs, plants, animals, geographical features, abstract ideas, objects, and many other things.

- The **cat** climbed the **tree** in an **attempt** to catch a **bird**.
- **Inequality** is a major **problem** in many **societies**.

3. Collective Nouns:-

A collective noun is a naming word that is used to denote a group of objects, animals or people.

- Our **class** took a field trip to the natural history museum.
- We waited anxiously for the **jury** to come to a verdict.
- This year's basketball **team** includes three players who are over six feet tall.
- Napoleon's **army** was finally defeated at Waterloo.
- The town **council** has approved plans to create a new park.
- Shristi comes from a huge **family**.
- The rock **group** has been on tour for months.

Are collective nouns singular or plural?

The experts agree that it's not always that simple. We usually treat collective nouns as a singular unit and use the singular verb. "But if the emphasis is on the individuals in the group, the plural verb form is used". Or we can say "*When the group is considered as a unit, the singular verb is used; when it is thought of as a collection of individuals, the plural verb is used.*"

The jury has taken its final decision. (United sense)

The jury were divided according to their opinions. (the emphasis is on the individuals)

COUNTABLE AND UNCOUNTABLE NOUNS

Countable Nouns:-

Countable nouns refer to items that can be counted, even if the number might be extraordinarily high (like counting all the people in the world, for example). Countable nouns can be used with articles such as a/an and the or quantifiers such as a few and many according to the sentence.

Some countable nouns:

Countable nouns can be singular or plural

We can use the indefinite article a/an with countable nouns:

- A dog is an animal.

When a countable noun is singular, we must use a determiner or article for it.

- Where is my bottle? (not Where is bottle?)

When a countable noun is plural, we can use it alone or with a determiner according to the meaning.

Uncountable Nouns

2. Plural number (बहुवचन)

1. **Singular Number** : जिस शब्द से एक ही वस्तु, व्यक्ति, जगह आदि का बोध हो, उसे 'Singular Number' कहते हैं।

जैसे- Babita has a pen. You have a ball.

Gudiya has a cycle. Rina sings a song.

- जब Noun Singular Number में हो, तो उसके पहले a या an का प्रयोग किया जाता है। A या an से एक का बोध होता है।

2. **Plural Number** : जिस शब्द से दो या दो से अधिक वस्तु का बोध हो, उसे Plural Number कहते हैं। जैसे-
